

Module Production Tracker

(Development Log)

This tracker is used to monitor the development status of each course module or screen. It includes content readiness, media needs, interactivity details, and reviewer feedback. Use this document to coordinate with SMEs, developers, and QA testers during the Development phase of ADDIE.

Module / Slide #	Title	Reviewer Feedback	Revision Status	Developer Notes	Completion Date
M1-S1	Introduction to Regulations	Add more real-world examples	Edited text and swapped image	Needs final audio sync	June 5, 2025
